National Director leading the BVN team in a number of award-winning and benchmark projects

Working across a full range of project types and scales, James Grose has consolidated a position of accomplishment in the architectural profession through design innovation, built works, awards, professional leadership and publications. Starting at the end of the 1980s with his own practice, Grose Bradley Architecture, before becoming a Principal of BVN through a merger in 1998, James was appointed National Director in 2006. James has led BVN project teams in a number of benchmark projects, from the seminal Campus MLC, through to the award-winning Brain and Mind Research Institute at The University of Sydney, and more recently, The Kinghorn Cancer Centre and ASB North Wharf. He is currently working on the NSW Australian Embassy in Bangkok.
