Registered Architect VIC

Principal with strength in client engagement and problem solving whilst achieving highly creative and innovative outcomes

Ninotschka is a highly creative thinker who specialises in clearly distilling complex scenarios and projects into inspiring and realisable concepts. She is interested in future scenarios and possibilities that can emerge through a project that have global currency. She is passionate about the role architects play in shaping our interactions, communities and cities and continually seeks to effect change through projects. She has 20 years experience and is a Principal of BVN. Her work has been recognised through numerous awards nationally and internationally including a RIBA International Award and an World Architecture Award commendation.
