Kelly contributes valuable experience to projects through her experience in all aspects of the briefing, design, documentation and construction phases

Kellie Newman has 16 years experience as an interior designer and has worked on a number of both small and large projects. Her experience is varied, encompassing corporate, health, residential and government clients. She contributes valuable experience to projects through her experience in all aspects of the briefing, design, documentation and construction phases. Through her extensive experience Kellie has gained a high level of technical knowledge and coordination skills, essential to delivering a successful health project.
