Excelling in project delivery and working closely with clients to achieve project aspirations

Susanne is an accomplished designer who has been working with BVN since 1999. Susanne has been a valuable team member on many design projects, notably the Deutsche Bank Headquarters in Sydney. After the successful completion of this project, Susanne went on to lead the design and documentation teams as Project Architect for Deutsche Bank offices in Auckland and Melbourne and a new corporate floor for the ASX. She is currently working on the new head office for South East Water in Melbourne, a new commercial building with integrated fitout exploring and Activity-Based Working (ABW) workstyle. This is an extension of earlier work in 2011 with ASB in their new head office in Auckland NZ, where Susanne led the workplace delivery team for an ABW brief developed by Veldhoen+Company. Susanne has also been a key team member in a 'next-generation' ABW project for GPT's workplaces in Melbourne and Sydney.
